

SFA

NEW TO THE SANIPUMP RANGE

For 50 years, sanitary pumping system specialists **SFA** have been successfully providing practical and innovative alternatives to conventional plumbing that improve comfort in the home without the need for costly works and with minimal disturbance. Drawing on their expertise, **SFA** diversified their product line a few years ago to include a range of pumps specifically designed for disposing of acidic condensate from condensing boilers, available with or without a neutraliser.

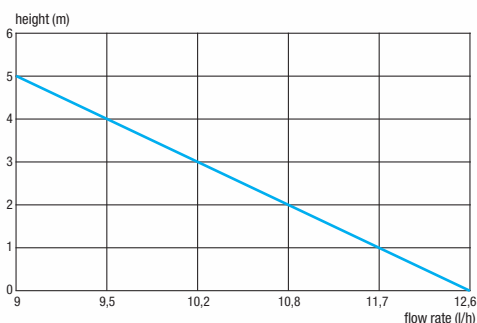

Now **SFA** are adding to their Sanipump range with the Sanicondens® Clim mini, Sanicondens® Clim pack and Sanicondens® Clim deco air conditioner condensate pumps.

SANICONDENS® *clim deco*

SANICONDENS® Clim deco is a compact unit that pumps away condensate from wall-hung air conditioners. Its low-profile design ensures neat, unobtrusive installation.

Vertical and Horizontal discharge: 5 m 40 m

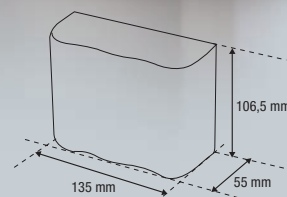

Easy to use in all air conditioner of refrigeration capacity of 10 kw or less

Maximum flow rate
12 L/h

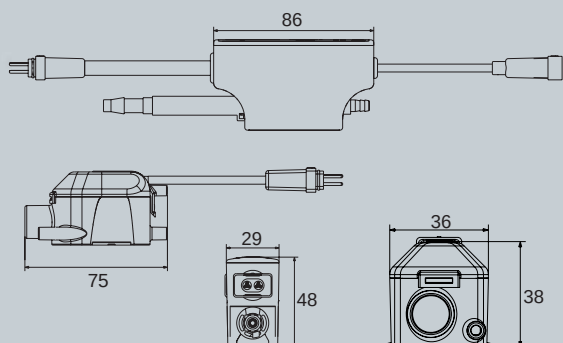

Electrical power supply
220 V / 50 Hz

Motor power rating
16 W

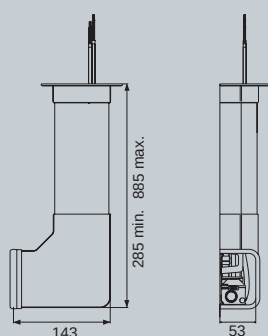

SANICONDENS® Clim mini

SANICONDENS® Clim mini is a pump that evacuates condensate from air conditioning units. Its compact design allows it to be mounted neatly alongside wall-hung air conditioners. With an operating sound level of under 21 dB(A), the SANICONDENS® Clim mini is surprisingly quiet running.

SANICONDENS® Clim pack

The ready-to-install kit comprises a **SANICONDENS® Clim mini** unit and a cable trough (for right or left mounting). The **SANICONDENS® Clim pack** has been specially designed for easy, low-profile installation.

Easy to use in all air conditioner of refrigeration capacity of 10 kw or less

Maximum flow rate: 10 L/h

Suction lift: 2 m (between the detection bloc and the pump)

Electrical power supply: 230 V / 50-60 Hz

Motor power rating: 19 W

Index of protection: IP 64

Sound level: <21 dB(A)

Measurements l x p x h :

Detection system: 75 x 36 x 38 mm

Pump unit: 86 x 29 x 48 mm

Supplied with a 2m flexible discharge pipe, wall mount brackets, vent tube and power cord
